Powered Air Purifying Respirator **AIR WING®**

It provides the clean air to the worker after it intakes the contaminated air with self power and purifies the air with the filter (Particle filter and Odor filter)

AIR WING PAPR變色龍4S空氣過濾連變色焊罩套裝

供應經過濾清潔後之空氣給焊工，給焊工更安全和更保障健康的工作環境：

AIR WING PAPR的優點和特性：

- ※混雜於工作區的焊煙空氣，經過濾後安全地供應給焊工。
- ※阻隔由焊接產生之微金屬塵，有效預防呼吸系統疾病。
- ※過濾芯堵塞，低電池警示警響和震動，提示焊工清潔和更換配件。
- ※比一般焊罩提供更全面的保護。

AW-100

Airwing PAPR advantages and characteristic

- It intakes the outside contaminated air by self-power and purifies the air by filter and provides the clean air to the worker.
- It is suitable for the protection of Aerosol, general particles, the respiratory epidemic diseases.
- In case of emergency(Filter blocking, low voltage), it alarms to the worker with signal and vibration.
- It perfectly protects the eyes and face and it provides the comfortable breathing compared to the facemask.
- We minimized the weight by using the minimum hood, Wide viewing windows, and shoulder strap.
- Compatible with the various hoods, so you can choose the suitable hood according to the working condition.

Workplace where it can be used

- Workplace with general particle, welding, grinding, sanding, painting, chemical, Medicine manufacturing, laboratory, and respiratory epidemic disease area.
